

SUPERFLO®

HIGH PERFORMANCE PUMP WITH TEFC SUPER-DUTY MOTOR

Rugged and versatile, with a TEFC Super-Duty motor for longer service life.

The SuperFlo pump features super-quiet operation and more than 40 years of innovative hydraulic engineering, and now includes a single-phase totally enclosed fan-cooled (TEFC) Super-Duty motor option. As a result, the SuperFlo moves water more effectively with less wear and tear. This means longer life for a higher return on your pump investment.

- TEFC Super-Duty motor options provide superior performance and longevity over traditional open drip proof (ODP) motors.
- Innovative hydraulic design and thick-walled body parts deliver super-quiet operation.
- When outfitting a new pool or looking for a superior replacement for a Hayward® Super Pump®, the SuperFlo pump drops right into place with ease to minimize installation time and expense.
- TEFC Super-Duty motors come with the TradeGrade advantage, which means they're made exclusively for and sold by the world's most demanding pool professionals. So, you can be confident you're getting unmatched quality and performance whenever they're installed.

SUPERFLO® HIGH PERFORMANCE PUMP

Strong, dependable performance.

The SuperFlo pump, featuring a TEFC Super-Duty motor, meets all the criteria for a superior pool, spa or water feature pump. SuperFlo is built with innovative materials that will stand up to the most demanding installations and conditions. Meanwhile, the TEFC Super-Duty motor's design prevents water, dust and other contaminants from entering and affecting the motor's operation and longevity.
