

## New Hot Tub Start-up Kit Instructions Using Spa Solution® An All-Natural Water Conditioner

TIMING	WHAT TO DO				
<b>Start-Up</b>	<ul style="list-style-type: none"> <li>Fill new tub with source water (we recommend a carbon pre-filter on your garden hose).</li> <li>Test the water with test strips to determine water balance.</li> <li>Adjust Alkalinity and Hardness to ideal levels.               <table style="margin-left: 20px; border: none;"> <tr> <td style="padding-right: 20px;">Alkalinity</td> <td>80 – 120 ppm</td> </tr> <tr> <td>Calcium Hardness</td> <td>150 – 250 ppm</td> </tr> </table> </li> <li>Because Source water may vary by region you may want to take a water sample to your local dealer.</li> <li>Bring water temperature to 100 degrees F. (38 C)</li> <li>Add one teaspoon of SANITIZE® granular chlorine and let sit with jets on and cover off for 20 minutes.</li> <li>Firmly shake one 480 ml bottle of SPA SOLUTION® and add to the water. pH levels will automatically lock-in.</li> <li>You are ready for your first hot tub experience.</li> </ul>	Alkalinity	80 – 120 ppm	Calcium Hardness	150 – 250 ppm
Alkalinity	80 – 120 ppm				
Calcium Hardness	150 – 250 ppm				
<b>Before Each Use</b>	<ul style="list-style-type: none"> <li>Add one teaspoon of SANITIZE® granular chlorine and let sit with jets on and cover off for 20 minutes.</li> </ul>				
<b>If Water Becomes Cloudy</b>	<ul style="list-style-type: none"> <li>Test for Alkalinity level and adjust as necessary. <i>Note:</i> pH level may be high but will adjust automatically.</li> <li>Add one teaspoon of non-Chlorine SHOCK® between sessions and allow water to circulate.</li> </ul>				
<b>Every 2-3 Weeks</b>	<ul style="list-style-type: none"> <li>Remove filter cartridge and clean by soaking overnight in a pail of water with 100 ml of FILTER SOAK® (It is suggested that you have a second cartridge to reduce down-time)</li> <li>Rinse the cartridge with a strong water spray from your garden hose.</li> <li>Place the filter cartridge back in its receiver.</li> </ul>				
<b>Every Three Months</b>	<ul style="list-style-type: none"> <li>We recommend draining and refilling your tub and repeat start-up procedure.</li> <li>If draining is not possible (winter months), firmly shake one 480 ml bottle of SPA SOLUTION® and add to the water to regenerate the enzymes.</li> </ul>				

**PLEASE NOTE:**

The Original Spa Solution® is an all-natural, non-toxic enzyme formula that will give you clean, clear water for up to 90 days with each application. It is an environmentally friendly product that will perform as promised when used as instructed. **Be sure to shake product well before applying.**

The Original Spa Solution® is an ideal product for spa owners that have dermal sensitivity to harsh chemicals and are looking for a simple spa water maintenance programme.

**Be sure to allow 20 minutes for the sanitizer to perform its work and dissipate before getting into the spa or closing the cover.**

**Naturally Balanced and Luxuriously Soft**
